

NOTICE OF PRIVACY PRACTICES

Effective Date: April 01, 2016

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

Introduction

All of us at the Chickasaw Nation Pharmacy Refill Center value your relationship with us, and we know that respect for your privacy is the foundation of that relationship. We are committed to protecting the privacy of your protected health information (PHI) that is in our possession, and only using and disclosing your PHI as necessary to providing you with health care products and services. PHI is any information that we possess, use and disclose that identifies you and relates to your past, current or future physical and mental health condition or illness and the health care products and services that have been provided to you.

This "Notice of Privacy Practices" (Notice) has been created to help you understand our legal duties to protect your PHI and describe how we may use and disclose your PHI in relation to your past, present and future physical or mental health condition or illness and its treatment. We will mainly use and disclose your PHI in relation to the health care products and services that we provide you, such as dispensing your prescriptions. Specifically, we will use and disclose your PHI as necessary to provide treatment to you, obtain payment for health care products and services provided to you, and other health care operations and activities as described later in this Notice. This Notice also describes the legal rights that you have related to your PHI that is in our possession. We take the matters described in this Notice very seriously because of our relationship with you and the requirement that we comply with this Notice.

Your PHI will only be used and disclosed as described in this Notice. Should a need for use and disclosure of your PHI occur that is not described in this Notice, we will obtain your written authorization before the use and disclosure. At some future time, it may be necessary for us to revise this Notice. If such becomes necessary, we will post the revised Notice in the pharmacy and, if you request, provide a written Notice to you.

Your Rights With Respect To Your PHI

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) provides you with several rights related to your PHI. These rights are summarized below. If you would like more information about any of these, please contact our staff at the address or telephone number of our pharmacy.

1. You have the right to receive this written Notice of Privacy Practices describing how we will protect your PHI and your rights related to PHI. You are entitled to request this written Notice at any time.
2. You have the right to request a limitation on our use and disclosure of your PHI. Please be aware, however, that we may not be able to agree to your requested limitation if it results in our not being able to provide health care products and services to you or if we are required to use and disclose the PHI under federal or state law. All requests for limitation on the use and disclosure of your PHI will be submitted to our pharmacy in writing using a form that we will provide to you.
3. You have the right to review or receive photocopies of our records that contain your PHI, to the extent that these records are part of a designated record set as defined by HIPAA. The most common such records are your prescriptions on file with us, our patient profile for you, and our billing records for health care products and services that have been provided to you.

The Chickasaw Nation Pharmacy Refill Center, its pharmacy staff, and other health care providers, are part of a clinically integrated care setting that constitutes an organized health care arrangement under Health Insurance Portability and Accountability Act of 1996 as amended (HIPAA). This arrangement involves participation of legally separate entities in which no entity will be responsible for the medical judgment or patient care provided by the other entities in the arrangement. Sharing information allows us to enhance the

delivery of quality care to our patients. All entities, however, have agreed to abide by this Notice of Privacy Practices (NPP) while working in either the medical clinic or pharmacy setting. You may receive other NPPs from other pharmacies or health care providers, which may be different from this NPP and which will govern the PHI maintained by that pharmacy or provider. Your pharmacy records and billing information are systematically created and retained on a variety of media which may include computers, paper and films. That information is accessible to pharmacy personnel and members of the pharmacy staff. Proper safeguards are in place to prevent and discourage improper use or access. We are required by law to protect your privacy and the confidentiality of your personal information and PHI. This notice describes your rights and our legal duties regarding your PHI. The entities covered by this notice include this pharmacy and all health care providers who are members of its medical and ancillary services staffs.

Health care operations: We may use and disclose your PHI for pharmacy operations. These uses and disclosures are necessary to run the pharmacy and make sure that all of our patients receive quality care. For example, we may use your PHI concerning your high blood pressure to review our treatment and services, to evaluate the performance of our staff in caring for you and to train health professionals. We may also combine PHI about many clinic patients to decide what additional services the pharmacy should offer, what services are not needed, and whether certain new treatments are effective. We may also share your information when needed to lessen a serious and imminent threat to health or safety.

Research: Under certain circumstances, we may use and disclose PHI about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another, for the same condition. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use of PHI, trying to balance the research needs with patients' need for privacy of their PHI. Before we use or disclose medical information for research, the project will have been approved through this research approval process, but we may, however, disclose PHI about you to people preparing to conduct a research project, for example, to help them look for patients with specific medical needs, so long as the PHI they review does not leave the clinic.

As required by law: We will disclose PHI about you when required to do so by applicable federal, state or local law.
